UN Global **Trusted**
Platform
Data, Applications and Services

**The Project Vision**
- A global collaboration to harness the power of data for better lives.

**The Project Goal**
- To facilitate previously unprecedented levels of data sharing by building a world-class collaborative global cloud platform of trusted data, services, and applications.
- **Explore the possibility** of building a public-private partnership that should extend current and future initiatives to make better use of innovative data sources at the national and regional levels.
