Future of work- Toolkits HRMT presentation
11 October 2022
Future of Work – Toolkits Questionnaire

- 41 replies
- This includes nil returns & partially completed responses
- Excellent geographic spread
- Clear interest in the theme
Future of Work Toolkits – (1)

- How Blended working is defined and implemented in the different participating countries, and policies around it
- Allocation of space or reconfiguration of employer premises to accommodate Blended Working
- Wellbeing in Blended Working Environment
Future of Work toolkits – (2)

- Virtual Working Supports and changes to core equipment
- How has Learning and Development evolved
- What steps have been taken to explored changes needed in Key Work Dimensions due to new model of working
Blended working – Attendance Policies?

• Tremendous diversity in replies, but almost all Respondent countries either:
  • have a policy in place or in development
  • comply with a national framework for civil/public service attendance, or
  • are actively considering future work arrangements
Facilities Management

• 16 out of 38 participant countries are planning to make changes to workspaces based on their transition to Blended working.
  • Smaller offices spaces, sharing with other government departments, hot desking with online booking systems.
  • But this implies many are not. Why not?
Wellbeing for Blended Working

• 17 institutions have undertaken studies to understand wellbeing drivers in a blended working scenario:
  • Employee Wellness Survey along pre-existing regular surveys regarding employees wellbeing, Moral Barometers etc
Virtual Supports

Remote Desktop Access

VPN

Teams

VPD

Hardware/Loading/35s/Mobiles for employees

Microsoft Office 365

Zoom

Citrix

Webex

Net Drive/Sharepoint

Online Data Collection/Video Portal

Yammer/Social Networks
Policies In Place or Emerging?
Learning and Development

- Training: From “In person” to Online
- Hybrid options to promote inclusion
- e-learning portals
- Access to MOOCs
- Courses on “How to Manage a remote Team”
So, we’ll do the same thing, just from home?

Note: n=3,630 (executives).
Changes to Key Work Dimensions

• Half of participants diagnosed the need for changes in how work is done to successfully implement Blended Working

• Some are designing Surveys in house to collaborate with staff in understanding desired approaches

• If you always do what you always did, you’ll always get what you always got…..NOT in Blended Working!
NSIs are on it, right?

• Equipping people physically is advanced
• Many of us have new collaboration platforms
• But our business rules and “How We Do Things” Handbooks need an overhaul
• L&D Interventions – for employees and leaders/managers
• Workplace Well-Being – Team Building etc
And don’t take our word for it on Well-Being!

GALLUP

4 Things Gen Z and Millennials Expect From Their Workplace (gallup.com, 2021)
...and new joiners have it harder...
So what can employers do to attract and retain talent?

When it comes to attracting Gen Zs and millennials, getting the basics right comes first, but businesses’ impact on society and the planet cannot be discounted.

Pay, feeling the workplace was detrimental to their mental health, and burnout are the top reasons millennials and Gen Zs left their employers over the last two years. But when it comes to what makes them choose an organization to work for, good work/life balance and learning and development opportunities are their top priorities.

**Top reasons respondents chose to work for their current organization:**

- **Good work/life balance**
  - Gen Zs: 32%
  - Millennials: 39%

- **Learning and development opportunities**
  - Gen Zs: 29%
  - Millennials: 29%

- **High salary or other financial benefits**
  - Gen Zs: 24%
  - Millennials: 27%

- **Positive workplace culture (e.g., employees feel valued, a sense of belonging, etc.)**
  - Gen Zs: 23%
  - Millennials: 23%

- **Opportunities to progress/grow in my career/take on leadership role**
  - Gen Zs: 23%
  - Millennials: 24%

- **I derive a sense of meaning from my work**
  - Gen Zs: 21%
  - Millennials: 26%

- **Flexible working model (e.g., can work remotely, on location, or a combination)**
  - Gen Zs: 20%
  - Millennials: 21%

The focus on learning and development is perhaps not surprising given evolving work demands and skills requirements. Gen Zs (37%) and millennials (38%) predict that the most notable workplace shift within the next 10 years will be artificial intelligence (AI) and other technologies being used to fully automate many jobs or job functions. So, employers who can help professionals adapt to this changing workplace are likely more appealing.

**Purpose is also critical.** Gen Zs and millennials are willing to turn down jobs and assignments which don’t align with their values. This is particularly true among Gen Zs and millennials in leadership positions.

- Nearly two in five (37% of Gen Zs and 36% of millennials) say they have rejected a job and/or assignment based on their personal ethics.
- Nearly half (46%) of Gen Zs and millennials in senior positions have rejected a job and/or assignment based on their personal ethics.

While societal and environmental impact, along with a diverse and inclusive culture, are not always at the top of the priority list when choosing a job, these continue to be critical issues in terms of retention. Those who are satisfied with their employers’ societal and environmental impact, and their efforts to create a diverse and inclusive environment are more likely to want to stay with their employer for more than five years.
Conclusions & Next Steps

• Diagnosis is the Easy Part!
• There are clear areas of challenge emerging for all employers – NSIs aren’t exempt!
• Are the FoW Sub-Groups focused on the right challenges?
• Where would you like us to prioritise our 2022/23 efforts?
• A Call to Action and a plea for Volunteers!
