

# The Office for National Statistics (UK) Culture Journey

Session 1 - UNECE workshop on Culture Evolution Wednesday 11 September 2019

# The ONS journey

- Background context ONS transformation
- 'One Office' culture initiative
- Culture Audit
- Deloittes Cultural Levers model
- ONS Cultural Framework
- Tracking our progress
- Key challenges

# Background

- ONS established in 2008
- Largest producer of official statistics in UK
- Five year transformation programme Data Capability; Economic Statistics; Public Policy and Population
- Initially focused on Organisational Design
- Realisation that the culture also needed to improve
- 'One Office' culture initiative commenced

### **Deloittes Cultural Levers Model**

**CULTURAL LEVERS** 

#### Stories

- Positive not negative
- Brilliant place to work
- Zero tolerance to Bullying & Harassmen
- Consistency across ONS
- 'People first
- People who can be themselves and this is celebrated
- Opportunities for all external recognition

#### **Power Structure**

- All professional functions are respected
- The right people are sought out for their expertise
- The Exec team are 'as one' role models
- Economic Stats have equal gender splits

### Controls

- Simpler governance
- Less report/paper writing
- More accountability
- Improved planning capability
- Best practices in all areas
- Automation

# ТО

### Culture is....

- High performing culture
- Flexible, diverse capable teams
- Innovative, dynamic organisation

#### Celebrate our successes

- Smart working equipment and environmental
- Visible, flexible working, e.g. job share, part-time
- Visible diversity
- People not defined by grade
- People are invested in clear career pathways
- Inclusive language

#### **Organisation Structure**

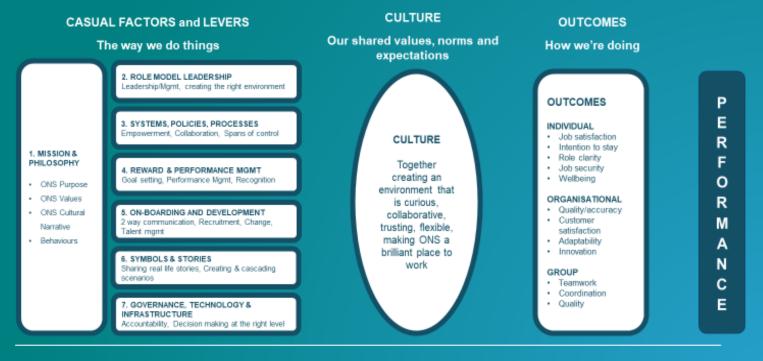

- Humanistic and mechanistic in equal parts
- Field force are more integrated
- Where flexibility and innovation are required
  structure to reflect this
- Not confined to location

### **Rituals, Routines & Behaviours**

- Respectful
- Trusting
- Curious
- Collaborative
- Flexible in our work and mindset

### **Culture Framework**

### **ONS Culture Change Roadmap**

Office for National Statistics

Building a brilliant place to work

# **Tracking our progress**

- Created a People Analytics function
- Identified a taxonomy of key HR activities
- Annual People Survey is key measure
- Looking to do more pulse surveys
- Work in progress

# Challenges

- New National Statistician = new ONS strategy
- Low organisational maturity = slow progress
- Limited/changing HR resource = intermittent progress
- Difficult to quantify and track progress
- Seen as an HR issue and not owned by whole organisation
- Struggle with Principles based policies = want rules to avoid making unpopular decisions

- We have focused on mechanistic approaches to changing our culture because we are a statistical organisation
- Our culture audit has highlighted the need for a more humanistic approach

# Summary

- Intermittent approach to evolving our culture
- From 'good' to 'great' rather than a radical change
- Used Deloittes Cultural Levers model to guide activities
- Focus has been on HR activities to change behaviours
- New focus is on a more planned approach to improving the culture

## Summary

- Developed our People Analytics capability to provide insight and guide our activities
- Measuring progress has been difficult to date but is now our focus
- To date we have focused on mechanistic interventions and will now develop more humanistic approaches
- Our key learning is that we need to engage hearts and not just minds
