

# BALSAM

An open base platform for process and analysis  
...including ML capabilities

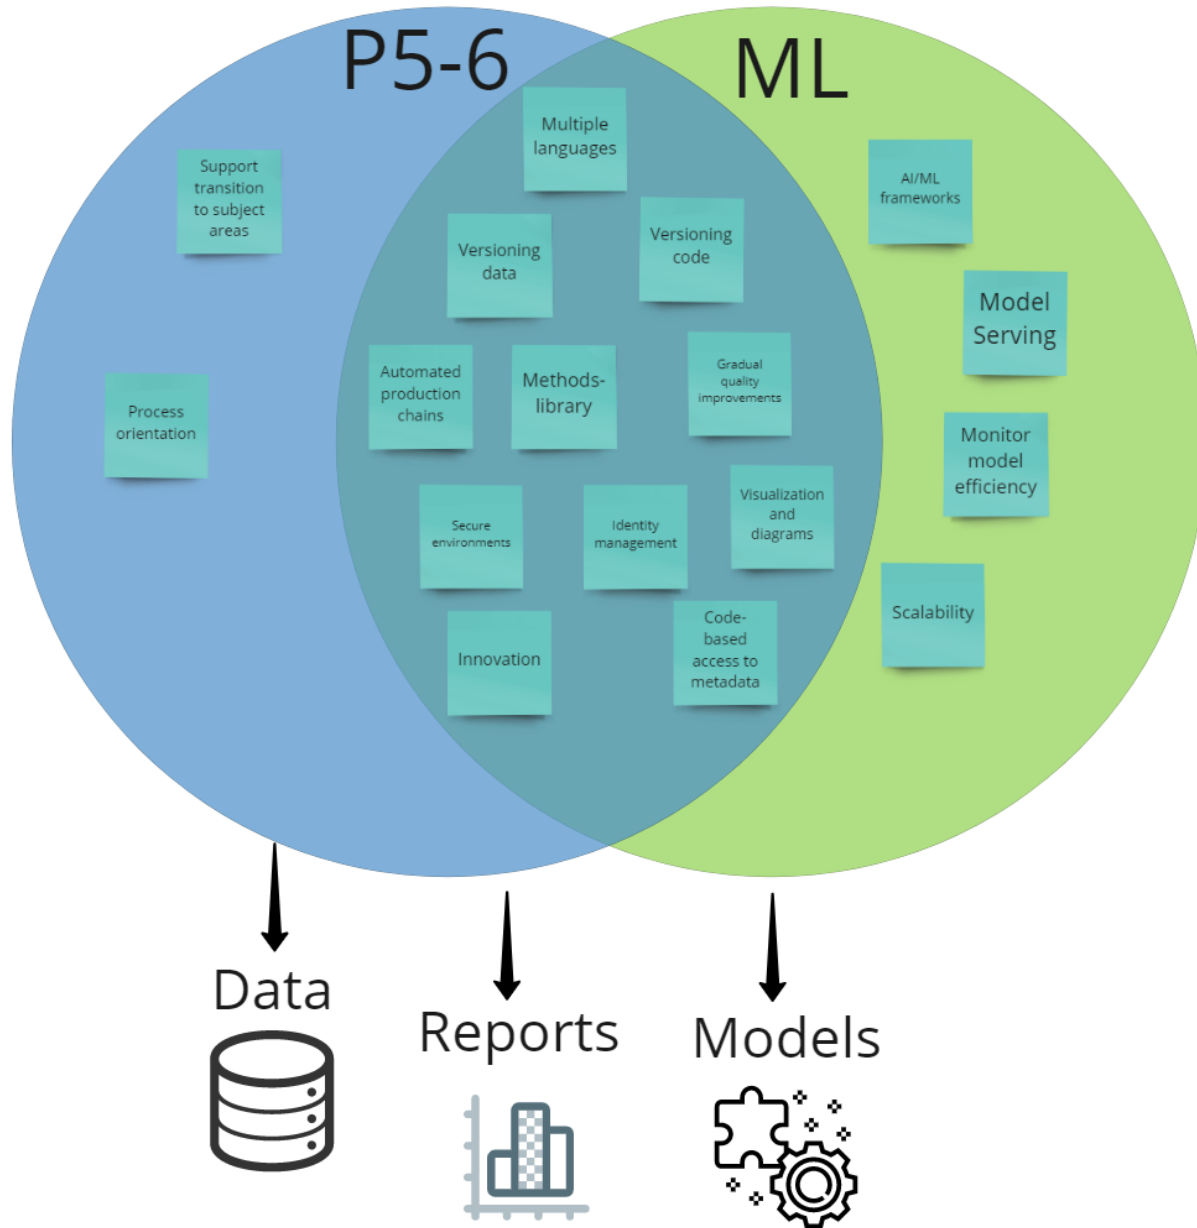

# Background

- Strategy at Statistics Sweden
  - Expand support for *Process and Analyze*-phases
  - Harmonize architecture and create sharable solutions (self-service platform for P5-P6)
  - Accelerate the use of AI/ML
- Strategy at national level in Sweden
  - Create a national digital infrastructure (shared gov services)
  - Accelerate *Data hubs* and use of applied AI/ML
- Statistics Sweden received funding for an innovation initiative together with *AI Sweden* and *University of Örebro*
  - *Make it easier to create new data hubs*

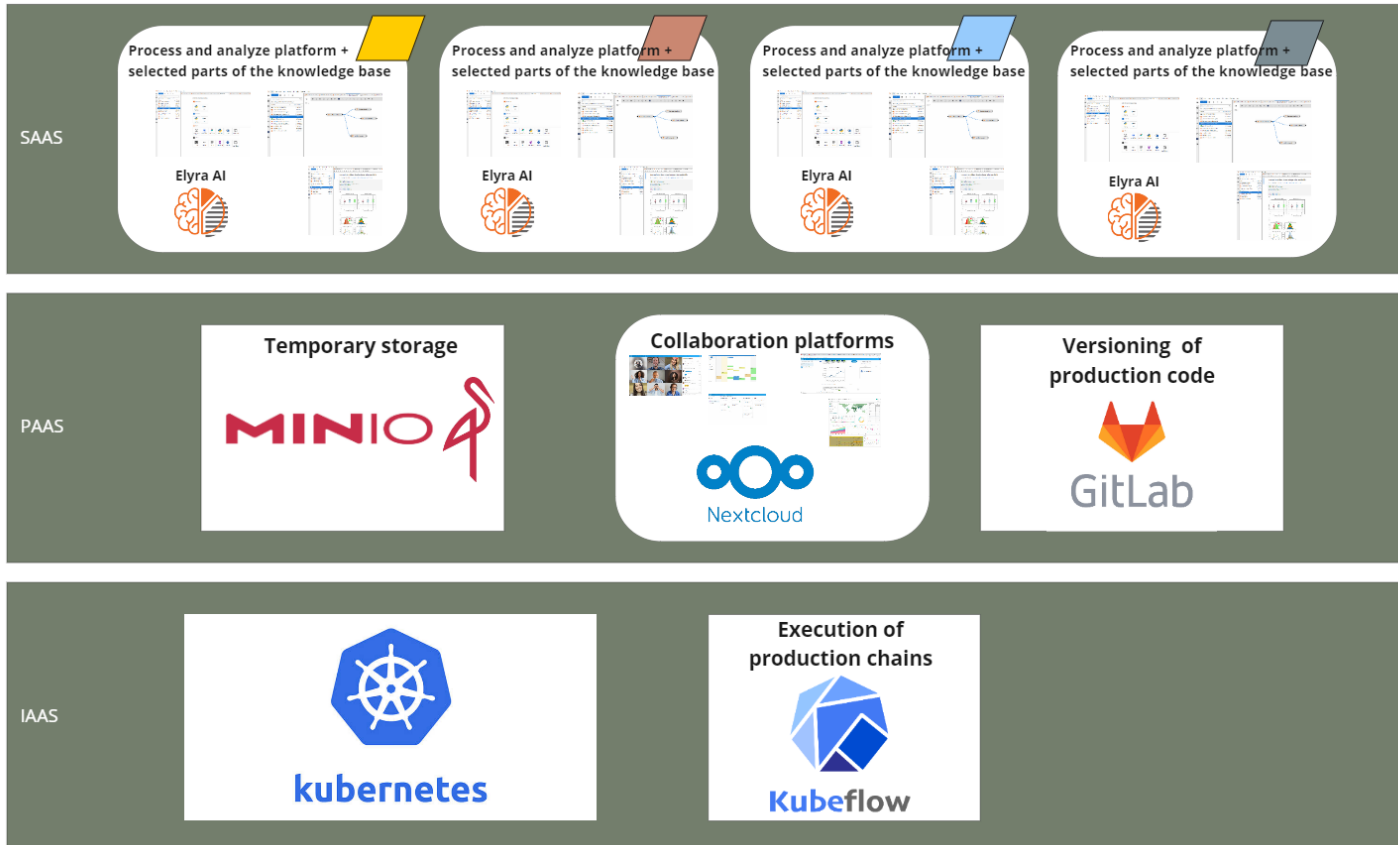

# Two worlds collide

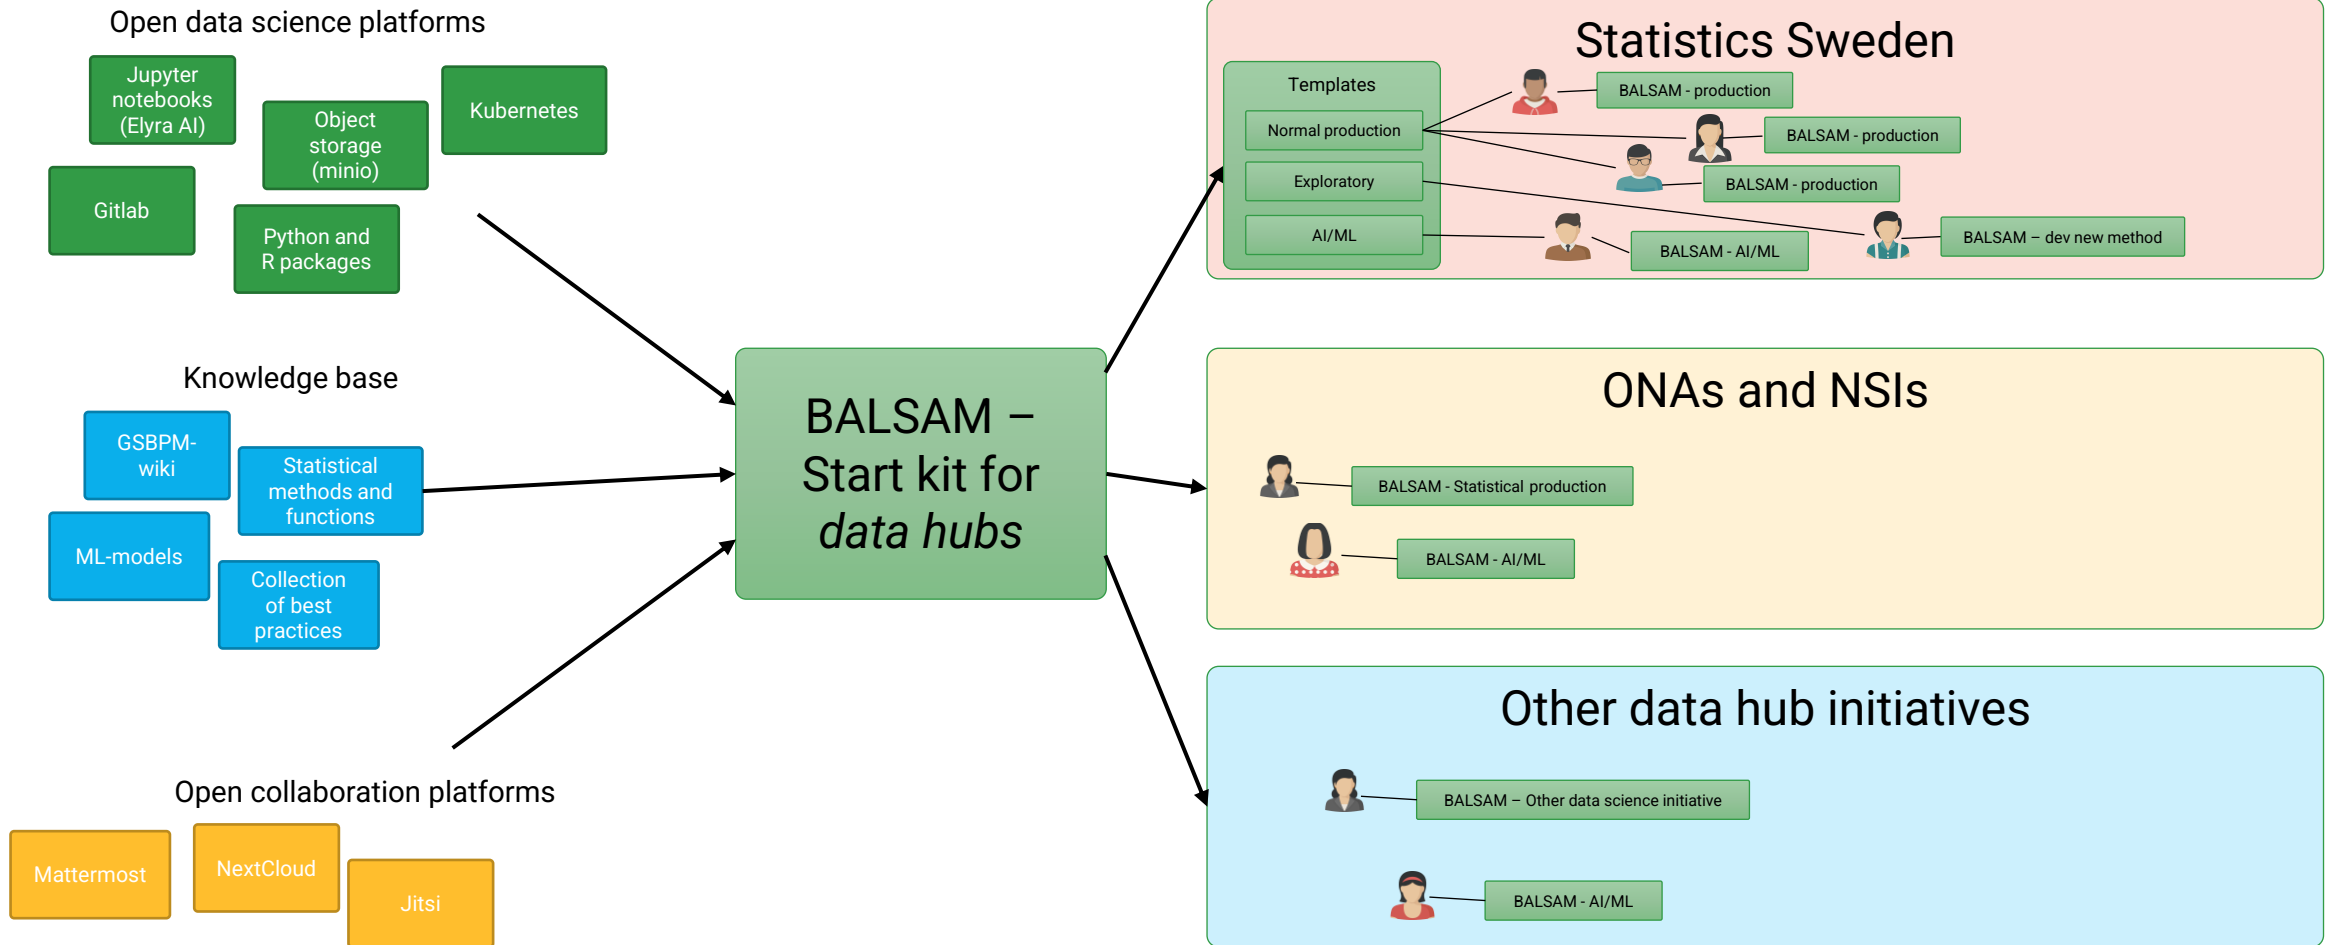

# Technology

# ...but configured

- GSBPM-context
- ML-initiatives
- Plus
  - Knowledge base
  - Versioning
    - Code
    - Data
  - Library management
  - Secure environments
  - Scaling
  - Metadata
  - Collaboration

# Deliverables

# We are looking for

- Feedback from AI/ML-groups
- Feedback regarding the GSBPM/GSIM-context
- Development partners
  - (if similar approach)

# What we are looking for
