On-going	Discussing the priorities for the implementation of main indicators of 2008 SNA with the Ministry of economic development and trade, Ministry of Finance, State Treasury, National Bank and others	List of the top priorities defined and agreed	<u>Activities:</u> Discussion of the issues of further implementation of the 2008 SNA with the Ministry of economic development and trade, Ministry of Finance, State Treasury, National Bank and others	Yes	2017
Inclusion of the implementation of the 2008 SNA in the overall strategic plan of the statistical office	On-going	Planned to be included as separate chapter into the Development Strategy of state statistical system for 2013-2017	Included as separate chapter into the Development Strategy of state statistical system for 2013-2017	Annual details included into Plan of the state statistical observations for 2014-2017.	No	2017
Adoption of detailed action plan for 2008 SNA.	See above	See above	Adopted plan of implementing the priority methodological guidelines of the 2008 SNA is mainly done	Requires work with international experts to determine future directions	Yes	2013-2017
STAGE 2 - Review of work needed to support implementation of the 2008 SNA						
Adoption of new classifications and other improvements in business registers and business statistics	Planned	Implementation of NACE Rev.2 Changes in classification of institutional sectors	NACE Rev.2 classification and non-financial assets have been implemented	Implementation of the new version of the Classification of institutional sectors and Classification of financial assets	Yes	2014-2017
Changes in business statistics surveys and questionnaires to	On-going	Changes in structural and sectoral statistics	Introduced changes in the structural statistics related the transition to NACE Rev.2	Changes in the structural and sectoral statistics: extending the list of expenditures on goods and	Yes	2017

¹ Not available yet, discussed, planned, on-going, finished, etc.

	Status 2012 ¹	Main problems and planned activities in 2012	Progress made since 2012	Outstanding problems and future activities	Need for TA, training, guidelines	Planned timeframe
collect the necessary source data				services; establishing module of structural statistics for the financial corporations sector		
Changes in other related source statistics compiled by the statistical office						
Review of related macroeconomic data sets compiled outside the statistical office (e.g. BoP, GFS, MFS)	Planned	Harmonization of data sources for government finance statistics (Ministry of Finance, State Treasury) and balance of payments and monetary statistics (National Bank and others)	Harmonization of data sources for the Balance of Payments (manual 6 th edition), and monetary statistics have partially been completed	Problems with the transition to the manual of the Government Finance Statistics 2001 Further work of the National Bank on the Balance of Payments and monetary statistics is required <u>Activities:</u> Harmonization of administrative sources of government finance statistics (Ministry of Finance, State Treasury), balance of payments and monetary statistics (National Bank and other agencies)	Yes. In the area of Balance of Payment, Monetary Statistics and Government Finance Statistics	2015
Adaptation of administrative data sources to new requirements						
IT and other changes. Staff resources.						
Development of methodological guidelines for implementation of Eurostat tabular approach to enhance exhaustiveness	Planned		Prepared methodological regulations to implement the Eurostat's tabular approach	No	No	
STAGE 3 - Development of National Accounts and changeover to the 2008 SNA						
Main priorities for SNA implementation						
Implementation of NACE rev.2	On-going	Experimental calculations	Calculated for period 2010-2012	No	No	

	Status 2012 ¹	Main problems and planned activities in 2012	Progress made since 2012	Outstanding problems and future activities	Need for TA, training, guidelines	Planned timeframe
Revisions in the classification of institutional sectors	Not available yet	No		Classification of institutional sectors Classification of assets	Yes	2014-2017
Improvements of the methods for estimation of NOE	Planned		Within the framework of implementation of Eurostat's Tabular Approach and methodological guidelines for the transition to the 2008 SNA methodology, accounting methods for non-observed economic activity have been improved, including the estimates of illegal economic activities.	No	No	
Improved methodology for the estimation of national accounts indicators and implementation of the 2008 changes affecting GDP	On-going	Need of respective changes in GFS statistics		Need of respective changes in GFS statistics	Yes	2014-2017
Outstanding issues from SNA 1993:				No	No	
New issues arising from the 2008 SNA:	On-going	Drafting methodological document reviewing main changes in 2008 SNA	Methodological statements for the transition to the methodology of the 2008 SNA have been prepared	Requires identification of further areas of implementation of the methodology of the 2008 SNA	Yes	2014-2017
Main issues affecting GDP						
i. Changeover to NACE Rev.2, development of conversion tables	On-going	Experimental calculations	Implemented NACE Rev.2, developed conversion matrix, received assistance within TWINNING project	No	No	
ii. Backcasting (NACE Rev.2) production and income accounts time series to 2000	On-going	Experimental calculations	Calculations for 2010-2012 were executed, received assistance within TWINNING project	Backcasting will be extended until 2000	No	2014
iii. Publication of indicators according	Not available yet	No	Figures published in accordance with NACE Rev.2 for the period 2010-2012.	Backcasting for the period up to 2000 will be published in September 2014	No	2014

	Status 2012 ¹	Main problems and planned activities in 2012	Progress made since 2012	Outstanding problems and future activities	Need for TA, training, guidelines	Planned timeframe
NACE Rev.2						
iv. Development of national methods for estimation of selected indicators, based on existing statistical data and administrative sources	Planned	No			No	
v. Improvement of estimation methods for NOE, introduction of Eurostat tabular approach to enhance exhaustiveness	Planned		Received assistance within TWINNING project. Within the framework of implementation of Eurostat's Tabular Approach and methodological guidelines for the transition to the 2008 SNA methodology, accounting methods for non-observed economic activity have been improved, including the estimates of illegal economic activities	No	No	
vi. Implementation of new method for calculation of FISIM	On-going	No	FISIM calculation executed by the new methodology	Problems with the estimation of export and import of FISIM in accordance with the manual of Balance of Payments, edition 6 th	No	2017
vii. Goods for processing, received from abroad	Discussed	No	Calculation of export and import has been done by new methodology in accordance with the manual of Balance of Payments, edition 6 th	No	No	
viii. R&D expenditure in the GCF	Not available yet	<u>Problem:</u> Need for related changes in government finance statistics	Research and development expenditures have been allocated to Gross Capital Formation	Problems with transition to the manual of the Government Finance Statistics 2001	No	2017
ix. Military expenditure in the GCF	Not available yet	<u>Problem:</u> Need for related changes in government finance statistics	Military expenditure have been allocated to Gross Capital Formation	Problems with transition to the manual of the Government Finance Statistics 2001	No	2017
x. Backcasting (2008 SNA) to 2000.	Not available yet	<u>Problem:</u> lack of resources (staff, software, databases)	Calculated for period 2010-2013. Received assistance within TWINNING project.	Backcasting will be extended until 2000	No	2014
xi. Publication of indicators according the 2008 SNA	Not available yet	No	Indicators according the NACE Rev.2 for period 2010-2012 were published	Backcasting for period up to 2000 will be published in September 2014	No	2014
xii. Implementation	Not	<u>Problem:</u> Need for related changes	Within the framework of	Requires identification of further	Yes	2014-2017

	Status 2012 ¹	Main problems and planned activities in 2012	Progress made since 2012	Outstanding problems and future activities	Need for TA, training, guidelines	Planned timeframe
of other changes in the 2008 SNA (output of central banks, insurance, others)	available yet	in sectoral statistics and administrative data	implementing the guidelines of the 2008 SNA changes have been introduced in reinsurance and imputed rent of owner occupied dwellings	areas of implementation of the methodology of the 2008 SNA		
GNI and other primary indicators						
For rest of the world – external accounts of primary income and current transfers, capital and financial accounts (BPM 6)	On-going	Regrouping of classification of BOP transactions, changes in SNA, backcasting		Changes in the balance of payment will be completed this year	Yes. To study guidelines on Balance of Payments (BPM 6).	2017
Institutional sector accounts (non-financial accounts)						
For all institutional sectors: Production account to Capital account	Not available yet	Implementation requires a change in the classification of institutional sectors of the economy and the introduction of segment of financial corporations in the structural statistics. <u>Problem:</u> Need for related changes in Government Finance Statistics (government sector)	A draft version of the new classification of institutional sectors	Calculations based on the new version of the classification of institutional sectors of the economy will be carried out after its introduction in statistics and administrative data sources	Yes	2015
