The new version of GSIM (v2.0) is now available for public review (until 31 July). Should there be any comments, please let us know via Github GSIM issue list.

- **GSIM Main Changes**: main changes made to the model
- **Change Log**: changes that have been made to each GSIM class
- **GSIM Model**: Base Group, Concept Group, Business Group, Structure Group, and Exchange Group (note that the model will be made "clickable" after the review)

GSIM v2.0 is accompanied by two introductory materials to support users

- **GSIM Communication Paper**: high-level introduction to GSIM (updated from GSIM Communication Paper v1.2)
- **GSIM User Guide**: detailed introduction to GSIM (repurposed from GSIM Specification v1.1)
