Modernisation Expert Meetings and Workshops

These workshops are organized by the Statistical Modernisation and Management Unit of the Statistical Division of UNECE. The focus is on sharing and discussing innovative practices and identifying future areas of work in official statistics. Invitations are sent to National Statistical Organisations and statistical departments of intergovernmental organisations. However, participation is open to any organisation or department producing official statistics as well as relevant academic institutes and NGOs. Please visit the specific meeting pages for further information and consult the Information Notices or contact the UNECE secretariat if you wish to register. Only workshops held since 2010 are listed here.

We very much welcome countries or institutes to host any of our workshops. Please contact UNECE (support.stat@un.org) if you are interested.
