

# Generic Statistical Information Model

# GSIM Version 1.1

Reader Guides can be found at the bottom of the page

[Change Log](#)

## Key GSIM Papers and Resources

**Brochures**

**Communication Paper**

**Implementing GSIM**

**Clickable GSIM**

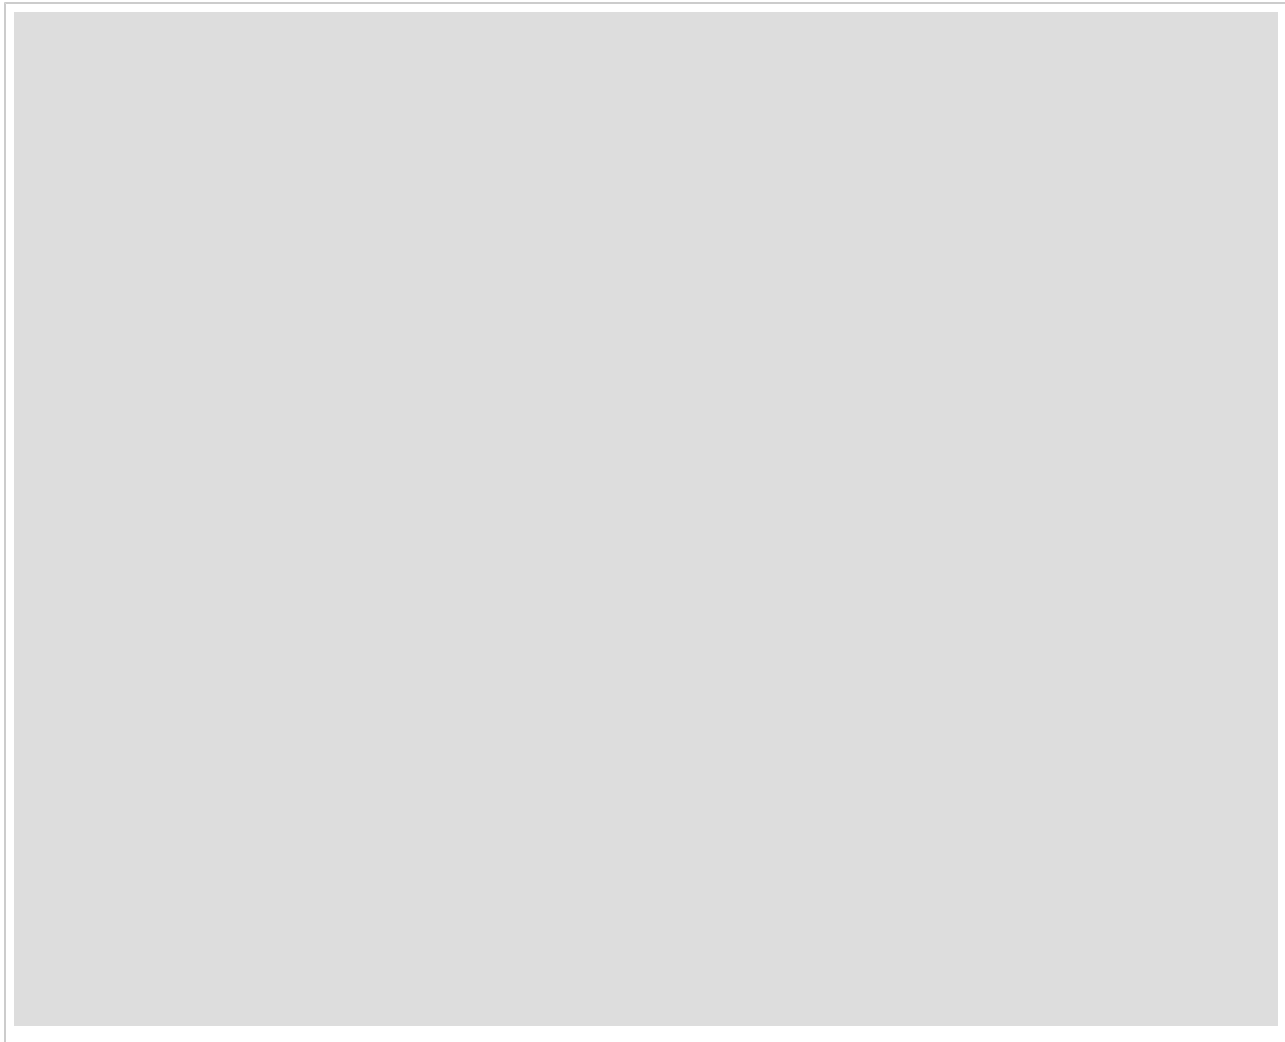

**Specification**

**GSIM Statistical Classification Model**

**Enterprise Architect file**

## Other GSIM Resources

### Glossary

This page contains the glossary of GSIM information objects (this is also found in Annex B of the GSIM Specification).

### Presentations and Posters

This page contains presentations that have been given at various conferences and workshops, as well as a number of posters which can be used to promote and explain GSIM.

## Discussion Forum

As organisations begin to use GSIM, this discussion forum will be used to explore issues with the model or propose extensions to the model.

## Previous versions

Links to previous releases of the model (v1.0, v0.8, v0.4, v0.3, v0.1).

## GSIM and other standards

Information about how GSIM objects relate to DDI, SDMX, ISO 11179 and Neuchatel

## Further Reading
