

# Classification of Statistical Activities

The Classification of Statistical Activities (CSA) is an international standard for describing and categorising official statistical work by domain. It is owned by the [Conference of European Statisticians \(CES\)](#), and is used in the [Global Inventory of Statistical Standards](#), as part of the [SDMX Content-oriented Guidelines](#), and by various other international initiatives. The current version is CSA Rev. 1, which was approved by the CES Bureau in October 2009.
