**Administrative Register**

A source of administrative information which is obtained from an external organisation (or sometimes from another department of the same organisation).

The **Administrative Register** is a source of administrative information obtained usually from external organisations. The **Administrative Register** would be provided under a **Provision Agreement** with the **Information Provider**. This administrative information is usually collected for an organisation's operational purposes, rather than for statistical purposes.

*Attributes inherited from super-type(s) are not included here*
