The 2019 workshop was held at the Palais des Nations, Geneva, Switzerland on 19-20 November 2019.

The purpose of the workshop was to ensure that the work is community driven and that activities and initiatives are aligned with the implementation of the HLGMOS vision, avoiding duplication and maximising efficiency. The expected outputs are a set of agreed and prioritised implementation actions.

The target audience are statisticians with technical knowledge of modernisation of statistics combined with a broader understanding of the statistical process and its modernisation, including some knowledge about international developments in this area.

### Practical Information
- Agenda (word version)
- Photos of the Workshop
- Report of the workshop
- Information Note 1
