Modernisation Workshops

Upcoming and Recent Modernisation Workshops and other events

Due to shortage of staff in the Statistical Management and Modernisation Unit at UNECE and the Covid-19 pandemic, it is highly uncertain whether the workshops planned for 2020 will take place. The HLG-MOS Executive Board and the UNECE secretariat will reassess the situation on a monthly basis. Therefore, for the time being, no invitations will be sent out.

- CHANGE OF DATE: Workshop on Statistical Data Editing, 15-17 April 2020, Geneva
- CANCELLED/POSTPONED: ModernStats World Workshop, 24-26 June 2020, Belgrade, Serbia
- DECISION PENDING: Workshop on Statistical Data Dissemination and Communication, 7-9 September 2020, Lisbon, Portugal
- CANCELLED: Workshop on Statistical Data Collection, October 2020 (tbc)

These workshops are organized by the Statistical Modernisation and Management Unit of the Statistical Division of UNECE. The focus is on sharing and discussing innovative practices and identifying future areas of work in official statistics. Invitations are sent to National Statistical Organisations and statistical departments of intergovernmental organisations. However, participation is open to any organisation or department producing official statistics as well as relevant academic institutes and NGOs. Please visit the specific meeting pages for further information and consult the Information Notices or contact the UNECE secretariat if you wish to register.

Only workshops held since 2010 are listed here.

We very much welcome countries or institutes to host any of our workshops. Please contact UNECE (mailto:support.stat@un.org) if you are interested.
