Ongoing activities

- The Steering Group on population and housing censuses is updating its information repository on the 2020 round of the population and housing censuses in the UNECE member countries with changes related to COVID-19.
- The Steering Group on migration statistics created a page on the statistical response to COVID-19 in the National Statistical Offices of selected countries represented in the Steering Group, with reference in particular to the collection, processing and reporting of data on migration.

Upcoming

- The September meeting of the Group of Experts on Population and Housing Censuses (30 September - 2 October 2020) will focus on the COVID-19 crisis impacts and response. Call for papers reporting on country experiences and paper template available soon.
- The Steering Group on gender statistics, in partnership with UN Women, is preparing a proposal to develop a minimum set of questions data producers might add to household surveys such as household budget and expenditure surveys or labour force surveys, to measure the differential impacts of the COVID-19 pandemic on women and men. A concept note will be publicly available soon.

Country Experiences

- The United Kingdom’s Office for National Statistics published this article (20 April 2020) on how they are adapting methods, sources and outputs for labour market statistics.
- The United Kingdom’s Office for National Statistics survey-based statistics on the social impacts of the Coronavirus.
- Experiences of three Latin American countries, including CES member Mexico, were presented in a video conference convened on 15 April by the United Nations Economic Commission for Latin America and the Caribbean and the national statistical office of Chile (INE) (in Spanish).
