**Data Structure**

**Definition**

- *DataSet*
- *Identifier Component*
- *Measure Component*
- *Name*
- *Description*
- *Value Type*

**Object Group**

- *Object Group: Data Structure*

**Explanatory Text**

The structure is described using *Data Structure Components* that can be either *Attribute Components*, *Identifier Components* or *Measure Components*. Examples for unit data include social security number, country of residence, age, citizenship, country of birth, where the social security number and the country of residence are both identifying components and the others are measured variables obtained directly or indirectly from the person (*Unit*).
