# CSPA Workshop 2017: CSPA for Digital Transformation

## 2017 CSPA for Digital Transformation Workshop.
Wiesbaden Germany, 3-5 July 2017

The Joint UNECE / Eurostat Workshop "CSPA for Digital Transformation" will be held in Wiesbaden, Germany at the premises of DESTATIS, the German Federal Statistical Office, from 3-5 July 2017, back to back with a workshop of the European Commission ESSNet project on Sharing Common Functionalities in the ESS (6-7 July 2017). It is being organised in the context of the work of the High-Level Group on the Modernisation of Official Statistics. It aims to promote the use of the Common Statistical Production Architecture (CSPA), to facilitate the sharing of ideas and plans for modernising statistical production, and to identify opportunities for international collaboration activities.

### Agenda Day 1

<tr>
<td>09:30</td>
<td>Opening Session</td>
</tr>
<tr>
<td>09:35</td>
<td>Welcome remarks Dieter Sarreither (Director General Destatis, Germany)</td>
</tr>
<tr>
<td>09:50</td>
<td>Introducing CSPA for Digital Transformation Robert McLellan (Statistics Canada)</td>
</tr>
<tr>
<td>10:30</td>
<td>Coffee Break</td>
</tr>
<tr>
<td>11:00</td>
<td>Modernisation Update Thérèse Lalor and Carlo Vaccari (UNECE)</td>
</tr>
<tr>
<td>11:30</td>
<td>State of the Nations: Common Statistical Production Architecture Rosemary McGrath (Statistics New Zealand)</td>
</tr>
</tbody>
</table>

### Highlighting CSPA Implementations

Chair: Neville DeMendonca (ONS, United Kingdom)

- **Statistics Netherlands Application Strategy** Matjaz Jug (Statistics Netherlands)
- **ESS Statistical Production Reference Architecture (SPRA)** Jean-Marc Museux (Eurostat)
- **Evolution of the .Stat architecture using CSPA** David Barraclough (OECD)
### Parallel Activities

Chair: David Barraclough (OECD)

- **12:45** Questions to presenters
- **13:00** Lunch Break

### Exploring the CSPA roles

- **14:00** Exploring the CSPA roles
  - Jakob Engdahl (Statistics Sweden)

###投资者 (Investors)

Chair: Rosemary McGrath (Statistics New Zealand)

- **14:00** When is collaboration better than autonomy?
  - Rosemary McGrath (Statistics New Zealand)

###设计师 (Designers)

Chair: Robert McLellan (Statistics Canada)

- **14:00** Methodology Architecture: a problem statement
  - Joni Karanka (ONS, United Kingdom)

###组建者 (Assemblers)

Chair: Trygve Falch (Statistics Norway)

- **14:00** Design: The three archetypes of integration in the statistical context.
  - Ronald Ossendrijver (Statistics Netherlands) & Jean-Marc Museux (Eurostat)

###14:50 CSPA Catalogue

- Pierre Peyronnel (Eurostat)
  - Information Flows in CSPA
  - Eva Holm (Statistics Sweden)

- Design and Build: Introduction to CSPA Adaptors
  - Trygve Falch (Statistics Norway) & Romain Tailhurat (INSEE, France)

###15:10 Questions to presenters

- Questions to presenters

###15:30 Coffee break

###15:50 Investors: What are the challenges

- Steven Vale (UNECE)

###16:00 Group Discussion

#### Description of Three Streams

###Investors, Designers and Assemblers

####Investor

The Investor stream will have a strategic focus. It will discuss why CSPA should be used, how organisations can find CSPA services that are available to share and how they can become CSPA compliant. CSPA describes the Investor role as being "focused on directing and financing the investments in new statistical processes that are needed to produce new statistical products. Investors commission designing, building and running statistical processes."

People who are managers are likely to be interested in this stream.

####Designer

The Designer stream is at the conceptual level and is suitable for those interested in how services are designed, including the methods used in the services and the information flows. In CSPA, the "Designer has been given a set of high level business requirements from the Investor. The Designer then assesses what solutions (services) are available to actually realize this design. Service design includes information design, work-flow, (service) interface design, and other relevant aspects."

People who are methodologists, business analysts, information architects, information technologists are likely to be interested in this stream.

####Assembler

The Assembler stream will have a technical focus on how to build and integrate CSPA services in your organisation. According to CSPA, "the Assembler integrates the Statistical Services according to the requirements of the business process. Depending on the pattern selected for the integration, the Assembler may build or configure a process orchestration, or set up mechanisms for an event-driven type of process."

People who are IT developers and IT architects are likely to be interested in this stream.
## Agenda Day 2 - Tuesday 4 July 2017

**Day 2 – Tuesday 4 July**

### 09:00
**Sharing the challenges - report back from discussions**  
Chair: Thérèse Lalor (UNECE)

### 09:15
**Plenary Discussion**

### 09:30
**Migration paths: Strategies for becoming a CSPA compliant organization**  
Rosemary McGrath (Statistics New Zealand) & Jakob Engdahl (Statistics Sweden)

**Reuse - from theory to reality.**  
Tomaž Speh (Statistical Office of the Republic of Slovenia) & Joni Karanka (ONS, United Kingdom)

**Assemble Demonstrations: Data Collection Platform**  
Neville DeMendonca (ONS, United Kingdom)

### 09:50
**A different angle: Validation as a Business Case for CSPA/SERV**  
Volker Weichert (Destatis, Germany)

**Using a Logical Information Model to create services**  
Robert McLellan (Statistics Canada)

**Assemble Demonstrations: Containerisation - helping with CSPA reuse**  
Romain Tailhurat (INSEE, France)
