Public web space of the UNECE Modernisation Group on Developing Organisational Capability under the High-Level Group for the Modernisation of Official Statistics.

The Modernisation Group on Developing Organisational Capability is part of the High-Level Group for the Modernisation of Official Statistics (HLG-MOS) or ModernStats. It continues the work of the Modernisation Group on Capabilities and Communication (2017-2018), and earlier Modernisation Committee on the Organisational Framework and Evaluation (2013-2017). The main focus is on the following activities:

- Change and Risk Management
- Organisational Frameworks for Collaboration
- Building Competencies

Risk Management

All Risk Management documents could also be accessed from the Risk Management public page

For leadership teams it developed:

- A short paper outlining how organisations can approach the consideration of risk appetite as a framework for decision making.
- A video presentation which seeks to make the case for risk management in statistical organisations.

For risk management practitioners it developed:

- Material which can be used to deliver training modules in the various stages of risk management, in support of the UNECE Guidelines in Risk Management for Statistical Organisations.
  - **Module 1: Concept of Risk**
  - **Module 2: The Risk Management Process**
  - **Module 3: Risk Appetite**
  - **Module 4: Identification and Treatment**
- An overview of the common risks faced by statistical organisations from across the world, with example mitigating actions, to be used as a basis for risk identification and control.
