The primary aim of CSPA is to support efficient sharing and reuse of process patterns, information and services at an organization and international level. The CSPA Catalogues enable you to reliably and efficiently discover what is available for reuse to support a particular business need.

The **Investment Catalogue** provides information about the developments that have been planned or are in progress by statistical organizations. [User Guide: Investment and Capability Catalogues](#)

The **Capability Catalogue** provides information about the developments that have been completed (i.e., Capabilities that already exist) in statistical organisations. [User Guide: Investment and Capability Catalogues](#)

The **CSPA Service Catalogue** provides information on shareable statistical services. It is hosted by Eurostat and access to the catalogue is public.

*note: please use Chrome or Firefox, the Catalogue does not render in Internet Explorer*
