The UNECE census wiki is a portal for information and materials related to population and housing censuses in the UNECE region, and UNECE-led work in this area.

If you have any questions or comments on the UNECE census wiki, contact us.
Coordination
Since its establishment by the CES in 2003, the Steering Group has coordinated the UNECE programme on population and housing censuses.

More about the Steering Group

Knowledge sharing
The Steering Group collates information about past, present and future censuses to aid countries in planning and conducting their censuses.

Find info about censuses

Methodological work
Task Forces prepare recommendations and guidelines. A task force is currently exploring how to measure the quality of admin sources for censuses.

More about the Task Force

Exchanging experience
The Steering Group oversees the organization of annual Expert Group Meetings, as well as sub-regional and national workshops for capacity development.

Meeting planning area

Events
To see details of upcoming and past UNECE meetings related to censuses, including all papers presented, visit the main UNECE website.
