<th>Concept</th>
<th>Individual Consumption of General Government -</th>
</tr>
</thead>
</table>

## Definition

The actual and imputed final consumption expenditure incurred by general government on individual goods and services. Also referred to as "social transfers in kind". It consists of individual goods and services provided as transfers in kind to individual households by government units (including social security funds) and non-profit institutions serving households (NPISHs), whether purchased on the market or produced as non-market output by government units or NPISHs. The items included are:

(a) social security benefits, reimbursements,
(b) other social security benefits in kind,
(c) social assistance benefits in kind, and
(d) transfers of individual non-market goods or services.
