

Big Data in Official Statistics: Technical Workshop Report (2014)

A report which summarizes the presentations and discussions that took place during the 2014 ESS Big Data in Official Statistics event organized by Eurostat in Rome (31 March-1 April), and provides recommendations for the way ahead in the promotion of the use of Big Data for the production of European statistics.

The report includes the resulting recommendations for an ESS 'Roadmap on Big Data in Official Statistics'

The full report, along with other materials related to the event, can be found [here](#).
