1) Basic Information

Training material title
Unknown macro: 'show-if' The Use of Administrative Sources for Statistical Purposes: common problems and solutions
Brief description and comments
Unknown macro: 'show-if' Slides from a presentation delivered by Steven Vale (now of UNECE) outlining the major issues in using administrative data sources and how these can be addressed. Issues covered are: public opinion; public profile; discrepanceis between administrative and statistical units; definitions of variables; differences in classification systems; dealing with missing data; issues with timeliness; combining data from different sources; and change management.
