

Questionnaire Specification

Definition

Object	Group	Definition	Explanatory Text	Synonyms
Questionnaire Specification	Exchange	The tool designed to elicit information from observation <i>Units</i> .	<p>This represents the complete questionnaire design, with a relationship to the top level <i>Questionnaire Component</i>.</p> <p>There may be many different <i>Questionnaire Specifications</i>, for the same surveys, or tailored to individual observation <i>Units</i> (respondents) so that there would be a different <i>Questionnaire Specification</i> for each respondent. The design would also differ depending upon the specific mode of collection the <i>Questionnaire</i> is designed for.</p>
